

It has been an incredible privilege and honor to provide physical therapy to each patient since we opened our doors in 2005. Over the years, we have witnessed our patients achieve milestones that many once considered unattainable. We are forever grateful for the many memories and milestones created at the Buckaroo Barn.

However, there is a season for everything in life, and our time as a physical therapy clinic at the Buckaroo Barn will come to a close on April 29th, 2025. As we conclude this chapter, we wish nothing but the best for our amazing patients and their families.

We are forever thankful for the indescribable passion, dedication, and vision for our patients brought to us by our late founder, Kristye Chastang. She saw an incredible need in the community and sought to bring it to life to enrich the lives of each patient who came through the barn doors. Her commitment to her patients and her unwavering desire to see each of her patients reach their fullest potential inspired all who had the privilege to witness it.

We are deeply thankful to our patients, their families, our employees, the Chastang Family, and the WhiteHouse Fork community for their tremendous support of the Buckaroo Barn throughout the years.

With thanks,
